MBS@Gov is a portal for private clinics to submit claims to the government a share of medical bills incurred by civil servants, retirees and their dependants in clinics. Civil servants will have to pay their share of medical bills at medical clinics upfront, saving them job problems through PaC@Gov. You can pay less upfront and enjoy the convenience of not having to submit health claims if you visit MBS@Gov participating clinics. No, as long as you or your addict(s) show your PS card or CSC, you will benefit from not paying medical bills in advance. The government will first settle your account and then deduct your share of your monthly pension (if any) or your bank account through the Inter-Bank GIRO. For hospital medical treatment, you will need to pay your share of medical bills in advance. You can solve it in cash or medisave with hospitals. We will settle part of the government's co-interest with you don't need to send us bills. This page uses frames, but your browser doesn't support them. Their. Their.
